Cántaro hervido

Hervían cantaros en las pozas de la tierra,

aerófagos sueños deshilvanándose en la bruma,

excigenan susurros dessssssssssvelados.

Destrampados vuelcos retumban

tras tristes tropas truncas.

Hocicos desintoxicados

expurgan ganancias hastiadas.

Transcurren los sueños

y rotos bolsos herrumbrados,

descansan tras oxidados portones.

Desvencijados galeones,

orgullosos señorones,

factótum señores,
                              factótum.
Caos
Principio divino.
