Armonía,
que se arremolina en un abismo
y trata de salir de él,
orden y caós
en lucha violenta,
se repliegan las fuerzas
en antagonismo feroz,
una continuidad de espacio,
formación de corpúsculos brillantes,
como insectos que buscan la luz,
espacio en formación de burbuja,
que colapsa al tiempo,
como variable primaria,
Contradicciones detrás de un verbo,
"Hágase la materia",
comienza la turbulencia de ese génesis romántico,
la órden está dada,
pero no existe la ejecución,
la acción,
el concierto
se demora eones de tiempo,
el Creador mira ese obstáculo,
hace un gesto,
comienza a transcurrir el primer segundo de Creación,
ha nacido el tiempo,
comienza a construirse el tejido
que une a la Galaxia,
los soles,
la vida,
Ahora existe el movimiento
las formas,
la piel se prepara para entrar en escena,
se inicia así el primer minuto de la Creación[img
