Oh September September
to a sad reminiscing I surrender
When on the 11th of one of ur days
Tears ran down my astonished face

As i watched tv N thought it was a movie or some kind of sick joke
But then I realized it was cnn live news. N that fire was real n so was the smoke

The choice was to be burn alive or jump out of the building
The enemy was accurate and precise in their planning n killing
U could hear the horrible sounds of bodies impacting the floor
But a lot more man would die in the following war

innocent people were taken when the towers collapsed ,manhattan was covered in a dark cloud
followed by an inmidiate silence
N then all u could hear was nonstopping car alarms n the ambulance sirens
We wont surrender n always remember those terrible acts of such cruel violence
The terrorist plot was in effect n United 93 was not an ordinary flight
On that day brave heroes were born n they did not go down without a fight

The pentagon was impacted by united 77 n it took 184 lives
That left fatherless children n mentally n emotionally broken wives
But in less than a year we n rebuilded it what a magnificent pentagon renovation
N we showed al queda that freedom prevailed n together we stand as a strong nation

Many of us blame God n why he let all that happen
We forget those were evil attacks order by osama bin ladden

We always want the blessing without accepting the blesser
When everything is ok God seeking becomes lesser
But on September 12 the churches were packed to their full capacity
so only in time of kaos n crissis looking for God is a necessity ?

10 days after the only sense of happiness was when mike piazza rescue the Yankees
On a game that would lead to the finals n leave people happy instead of cranky

That world series was amazing n like life the end was not fair
the Yankees. Lost the series but they left their hearts there
baseball for a second took our worried minds from the shocking events
But everytime we passed by ground zero we feel the sadness n mourning laments
The statue of liberty remid us n let us know we r in a free country
n we elect our presidents by majority of votes even though in all politics we don't agree
Let's go back to our roots n like our founding fathers in God we should trust

Instead of his holy word with religion we try to adjust
Do not add or take away n read the truth is a must

May God bless America n the firefighters police, officers , paramedics volunteers everyone that.
Helped what true heroes u are
